AMBICON 2023 Advisory No.1 Dated 30.09.2023

Dear friends,

Greetings from Organising committee of AMBICON 2023.

We are publishing this advisory based on the repeated queries/ requests received from the delegates.

a. Early bird registration for the conference is already extended till 15th October 2023. Everyone is requested to early, so as to get early bird benefit. This date will not be extended further.

b. Confirmation mail mentioning registration number is usually sent at the end of the day. Since the team handling it, is based in Bangalore, they were unable to send mails for past 2 days due to Karnataka bandh. Same would be initiated & streamlined from today onwards.

c. There are lots of requests for accommodation. Since there are plenty of hotels around we left it to individuals. However considering the requests, we would be short listing few hotels with their approximate tariff. Interested delegates can directly book these hotels online. We will arrange transport facility from these hotels to the conference venue. Since the conference period is a wedding season, you are requested to book accommodation at the earliest. Proposed list of hotels will be put up on the website soon.

d. Preconference workshops will be held on 13th December 23 in different parts of Mumbai & Navi Mumbai. Travel arrangements for these workshops will be communicated later. However it must be noted that, transport facility will be made available only from proposed list of hotels which will be put up on website.

e. Arranging conference is a huge challenge to the organizers. It is very difficult to predict the proposed income as well as expenditure. Hence there is no complimentary registration. Everyone including the committee members, speakers etc. have to register.

f. All registrations are non refundable.

g. Only registered delegates are permitted to present the papers/ posters. In case Spouse/ child holds MD Biochemistry degree or is a PG student of MD Biochemistry, then for such candidate to present paper/ poster, it is mandatory to register as a full fledged delegate. It is also to be noted that, only full fledged registered delegate will get attendance certificate & delegate kit.

Dr. Pramod Ingale
